

## Connecting to Guest Wifi Network – Chromebook

This network has limited internet access along with content filtering. Gaming and social media are some of the content filtering not permitted. Accept terms before gaining access to the network.

1. To find a guest network near you, click on the Status Area. The Status Area is in the lower right corner of your screen.
2. A Menu with various settings will pop up. Look for the Wifi icon and click on it.
3. There will be CS-Guest networks for each building. Click on the CS-Guest network in your area.
4. When you click on the network, it will connect.

5. A notification that says “Connect to Wi-fi Network” should pop up. Click on the notification.

6. When you click on the notification, our terms and conditions will load. Click on “Continue to the Internet” to fully connect to the network.
